The uninsured rate among working-age adults held steady at 14 percent.

Note: FPL refers to federal poverty level; 250% FPL is about $31,150 for an individual and $61,500 for a family of four.

Most adults are aware of the marketplaces, but uninsured adults remain less aware.

Are you aware of the marketplaces also known as HealthCare.gov or the marketplace in your state?

Adults ages 19–64 who responded “no”

Uninsured adults most often cite concerns about affordability as the reason why they didn’t plan to shop for marketplace coverage.

You said that you do not intend to visit the marketplace to shop for health insurance this fall. What are the reasons you do not plan to visit the marketplace? Is it because...

Notes: Segments may not sum to indicated total because of rounding. FPL refers to federal poverty level; 250% FPL is about $31,150 for an individual and $61,500 for a family of four.

Among Medicaid or marketplace enrollees who lacked confidence about keeping their plans, nearly half said the Trump administration wouldn’t carry out the ACA or Congress would repeal it.

What is the main reason you are not confident you will be able to keep this coverage in the future?

- The Trump administration will not carry out the law: 32%
- You won't be able to afford this coverage: 19%
- Congress will repeal the law: 15%
- Insurers won't provide this coverage where you live: 12%
- Will not longer qualify for it: 8%
- Some other reason: 11%
- Don't know: 4%

Adults ages 19–64 with marketplace or Medicaid coverage who were not confident they would be able to keep health care coverage in the future.

Note: Categories may not sum to 100 percent because of rounding.

Most people think all Americans should have the right to affordable health care.

Do you think all Americans should have the right to affordable health care?

- Yes: 92%
- No: 58%
- Don't know/Refused: 13%

What if everyone had to contribute financially over their lifetime in order to have the right to affordable health care? Under those circumstances would you consider affordable health care to be a right?

- Yes: 29%
- No: 7%
- Don't know/Refused: 13%

Adults ages 19–64

Most think paying into Medicare over a lifetime is a fair way to ensure everyone has access to care at age 65.

Most people contribute financially to Medicare over their lifetime through payroll taxes. Do you think this is a fair way to help ensure everyone has access to Medicare when they become eligible at age 65, or not?
